

# Where Do We Go From Here?

**Anthony Star**  
**Senior Advisor**

**Illinois Renewable Energy Conference**  
**Bloomington, Illinois**  
**October 2, 2024**

# Last Year's Challenges: Still With Us

- **Utility-scale wind procurement results have lagged utility-scale solar results**
- **Funding cycles improved but significant uncertainties remain**
- **Public School participation slow**
- **Low-income residential solar**
- **Sorting out community solar**
- **Ensuring Equity in the clean energy economy**
- **Supply chain and labor challenges continue**

# Last Year's Opportunities: Still Pending

---

- **Developing Energy Storage Policy**
- **Inflation Reduction Act**
- **2024 Legislative Session**
- **Hydrogen**

# What's New

---

- **Load Growth, Load Growth, Load Growth**
- **Capacity Market Impacts**
- **Welcome to the Illinois Finance Authority**
- **Market Sorting Out**
- **Net Metering/Smart Inverter Rebate Changes**
- **Nuclear?**

- **Last Year's Topics**

- **IPA Policy Study**
- **2024 Long-Term Plan**
- **Clean Energy Dashboard**

- **Coming Next Year**

- **2026 Long-Term Plan**
- **Resource Adequacy Study**
- **Racial Disparity Study**

**We are Listening!**

## **IPA's Levers for Change**

- **Program Updates**
- **Long-Term Plan Updates**
  - **Statutory Changes**
